

Retrofit your
equipment for
the future!

kontron

The Power of IoT

Kontron AIS GmbH

When Old Systems need a new Life...

Obsolete
control
system

Spare parts
no longer
available

Missing
data
interfaces

Increasing
downtime

Too often
maintenance

Old experts
no more
available

Software
support
stopped

No
compliance
to current
standards

It's time to retrofit
your equipment for
the future.

Together for Future-Proof Vacuum and Coating Systems

Sometimes it takes the perfect partner to get the best out of systems and technologies – and that's exactly what Kontron AIS GmbH has found with us at robeko GmbH & Co. KG.

We are now pooling our experience in vacuum and coating technology to offer you customized coating and retrofit solutions.

One Stop Shop for Thin Film Components, Materials and Technology Support Trade, Manufacturing and Services of

- Rotatable & planar magnetrons
- HiPIMS, RF & DC power supplies
- Plasma analysis
- Microwave technology
- Sputtering targets & bonding service
- Feasibility studies, process simulation & implementation
- Coater upgrades & retrofits

Kontron AIS GmbH

Industrial software for equipment and production.

- Retrofit for process control
- Renewal of components
- Complete or partial renewal of the electrical system
- IT-integration & SEMI-compliance

Kontron AIS GmbH

The Way to Retrofit Your Equipment

- ▶ Analysis consulting by experts
- ▶ Hardware & software concept
- ▶ Electrical engineering
- ▶ Software development
- ▶ Hardware design & manufacturing
- ▶ Installation, commissioning & system test
- ▶ Ramp up support
- ▶ Technological consulting
- ▶ Service & support
- ▶ Maintenance contract (optional)

Your benefits

- ▶ Increase machine performance
- ▶ Improve performance parameters
- ▶ Reduce time and money spent on maintenance
- ▶ Stabilize machine operation
- ▶ Reduce production costs
- ▶ Increase spare parts availability
- ▶ Reduce downtime
- ▶ Expand quality assurance
- ▶ Save costs by avoiding new purchases
- ▶ Achieve independence from the system supplier

Refurb your machine now!

Let's work together to find the perfect solution for your system.
